Poland and Germany Ag-

PARIS, Oct. 15.—The Council of Ambassadors to-day adopted the recommendation of the Council of the League of Nations relating to Upper Silesia.

Measures for putting the decision into effect will be decided upon Monday.

Commission Warns Both Sides.

By the Associated Press.

BERLIN, Oct. 15.—The interallied commission in Oppeln, Upper Silesia, has again warned both the Polish and German factions in Silesia that force will not be used to suppress disorders. A state of siege has been declared in the Beuthen district, where the Germans have been carrying on demonstrations. Renewed agitation has been started in Upper Silesia for a general strike in protest against the decision of the Council of the League of Nations regarding the region, which is increasing the excitement of the German population in

the district reported to have been given to Poland, according to late despatches. Great crowds of Germans, carrying household goods and other belongings, are fleeing from Koenigsbutter, Myslowitz and Kattowitz. Hundreds are gathering in Beuthen, fearing a clash when the decision of the league council is announced officially.

The Communists of Silesia, who have united with the Radical Socialists, are asserted to be taking advantage of the confusion. They are polling the laborers on the question of a strike, and have issued an appeal which says: "We will not be sold like a herd of cattle, and we say to the Entente, as well as to Poland, 'Hands off Upper Silesia.'"

Despite Dr. Wirth's statement to newspaper correspondents Thursday that he did not intend to relinquish the Chancellorship, the newspapers continue to weigh the possibilities of the Reichstag deciding otherwise. The Senior Committee of the Reichstag will meet on Monday to fix the date for the next Reichstag session and speculation is rife regarding what will transpire at that time.

To the speech of Dr. Hergt, a Nationalist, who, at an election meeting yesterday assumed the leadership of the anti-Wirth elements under the slogan, "The Wirth Government is dead and must remain dead," the *Frankfurter Zeitung* replies by asking, "Why?" The newspaper holds that the Wirth Cabinet is not responsible for the Silesian decision and sees no other way to preserve the country from chaos than continuance of Chancellor Wirth's policy.

"The only way to obtain a revision," it adds, "is by a strenuous endeavor to fulfill our obligations."

Balfour Gives it Up.

By the Associated Press.
LONDON, Oct. 15.—Arthur J. Balfour, the British representative on the Council of the League of Nations, made a statement to-day regarding the council's Upper Silesian decision, in which he said he thought it would be well if one of the council should explain the decision, which officially has not yet been made public. Mr. Balfour said the allied supreme council, unable to decide the question, had handed over the task to the league council, which had done its

Ludwig of Bavaria Reported Seriously Ill

By the Associated Press.

BERLIN, Oct. 15.—Former King Ludwig of Bavaria is seriously ill and his recovery is doubtful, according to advices to-day from Sarvar, West Hungary, to the *Deutsche Allgemeine Zeitung*. Ludwig, who is 76 years old, arrived in Sarvar a fortnight ago from Bavaria.

best and had arrived at a unanimous conclusion.

"If the two parties," (the Germans and the Poles), he declared, "are prepared to show ordinary prudence and a sense of self-interest, they will be able to make the scheme a working proposition."

Commenting upon expressions of disapproval on the part of Germany, Mr. Balfour said he could not imagine any policy more suicidal if the Germans should attempt to wreck the whole scheme.

F. A. VANDERLIP IN BALKANS.

American Financier Leaves Constantinople for Sofia.

While in Constantinople he conferred with the Grand Vizier and the Minister of Commerce on financial and economic questions.

ONLY SIX SPANIARDS WOUNDED AT ZELUAN

Most Bodies of Moorish Captives Showed Torture.

MADRID, Oct. 15.—The Spanish troops in Morocco lost only six wounded in the operation which resulted in the occupation of Zeluan yesterday, according to despatches from Melilla received here to-day. They assert that most of the bodies of massacred Spanish soldiers found in that vicinity showed signs of torture and mutilation.

The cavalry corps was enraged to such an extent that it charged the Moroccans without awaiting artillery preparation and engaged in hand to hand fighting.
